

MULTI JACKET

C Wing

The "C" Wing passes around the leg strap and re-attaches back upon itself. Swoop cords tighten the wing. The standard wing comes with a Fastec clip that has a loop attached. You feed your leg strap through the loop. This is a more secure anchor point as it can not move. Brass R.S.L. releases are available for \$30 extra.

Dual Wing Top

The trend is that Sky Surfers and Free Stylists are using a small wing for maneuverability. For early Sit Flying some schools use the Sit Wings to become familiar with the sit flying position. We also offer the baggie Free Fly jacket. As the Sit Fly student progresses with the jacket they can then jump just the legs to learn head down, and can then combine the two for Free Flying.

We can supply you with an extra ring and tape for you to sew to your harness

THE MULTI JACKET COLOR LIST
